ABOUT US

GRAND EAST Glass and Aluminum Corp. is a trusted Philippine-based architectural aluminum and glass company established in 2016, specializing in high-quality window and door systems for luxury residential, villa, and premium architectural projects.

With a large-scale local manufacturing facility and integrated in-house tempered and insulated glass production, GRAND EAST delivers precision-crafted products with consistent quality, reliable lead times, and professional project execution tailored for the Philippine climate.

Since 2016, GRAND EAST has successfully completed over 5,000 projects across the Philippines, earning the trust of homeowners, architects, designers, and developers through exceptional workmanship, dependable service, and long-term customer support.

From modern tropical villas to high-end residential developments, GRAND EAST provides complete solutions including design coordination, manufacturing, delivery, installation, and after-sales service - ensuring a seamless experience from concept to completion.

Combining premium quality, competitive value, and dedicated service, GRAND EAST continues to be one of the preferred choices for architectural aluminum and glass systems in the Philippines.

MISSION

To offer cost effective and high quality products and to be a high value partner for our customers. Providing exceptional support and services.

VISION

We aim to be the most recognized and largest Glass and Aluminum industry through providing quality and highly competitive designed products that can fulfill all customers' needs.
